Hazard Identification

This product is meant to be used as lubricant for brass musical instruments. It is only harmful or fatal if the liquid is aspirated into lungs. Do not ingest. The GHS pictogram in the label fulfills the USA/EU regulations about this product. Warning about the GHS aspiration hazard, category 2. This product is packaged in a bottle with a child-resistant cap.

Potential Health Effects:

- Eyes: No significant hazards identified.
- Skin: Prolonged or repeated contact may dry the skin or cause irritation.
- Inhalation: Inhalation of oil mist or vapors at elevated temperatures may cause respiratory irritation.
- Ingestion: Aspiration hazard if swallowed. Harmful or fatal if the liquid is aspirated into lungs.

First Aid Measures:

- Eye contact: Wash your eyes.
- Skin contact: Wash the area.
- Inhalation: No hazard under normal use.
- Ingestion: If accidentally swallowed, do not induce vomiting. Get medical attention.

Toxicological and Environmental Information:

No component of this product at levels greater than 0.1% is identified as a carcinogen, mutagen, reproductive toxin, teratogenic, or embryotoxic by any regulatory agency. This content of this product is biodegradable. The bottle, child-resistant cap, dispenser and label can be recycled.

Regulatory and Transport Information:

This product is not regulated under Section 302 of SARA and 40 CFR Part 355. This product does not contain any hazardous ingredients at or above regulated thresholds.

This product is not classified as hazardous for transport (DOT, TDG, IMO/IMDG, IATA/ICAO). Since the product is non-flammable, it is safe to take on board commercial aircrafts.
